What a ride...

Stuff going wrong

- Tons of sponsor stuff held in customs
 - ..at least I didn't have to drive to customs repeatedly this time
 - ...we still have 300 fidget spinners which will probably not make it in time
- Not finding a truck to rent

Stuff going wrong

- Dayjob exploding on Tuesday
- So on Wednesday:
 - ..get the truck
 - ..load the truck
 - ..shower & make myself pretty
 - ..rush to meeting with external people
 - ..argue and discuss a lot
 - ..rush to the venue to find out that..

Stuff going wrong

- ..we would not have the event space
 - Even though I ordered more food in anticipation of having space
 - ..and let more sponsors have booths this year
 - ..because the A/C didn't work
- So having the A/C fixed after a lot of back and forth
 - ..finding out that there's not enough security
 - ..and fixing **that** with gobs of money

Stuff going wrong

- Not having water to flush the toilets
- Some light rain during the social
- Food distribution woes during the social
- Issues with site security

But it was fun (I guess?)

Once again, thanks to all our sponsors!

Thank you
